Description

4th generation autoflowering strain. Autoflowering version of one of the most famous strains from the West Coast of USA.

????????? ?????: **Killer Kush Auto**

---

Developed around the year of 1994 in Sunset Beach, South California, and named as Ocean Grow Kush but better known as OG Kush.

Our SWS56 (Killer Kush Auto) is the result of the hybridization between a selected 3rd generation autoflowering genetic line leaning to the indica side and an elite clone of OG Kush.

The result is a very potent plant with a very fast flowering. This strain produces large and aromatic buds, all covered by a thick layer of trichomes.

The aroma is sweet, citric and acid with exotic tones reminiscent of aromas from the Chem Dawg – Diesel family.

Type  
100% Autoflowering

Indoor  
8 weeks from germination

Outdoor

Yield  
400-550 gr/m<sup>2</sup>

Height  
60-100 cm
