Description

## Anesthesia

Anesthesia is a mix of two genetics (**Northern Lights** and Black Domina), selected to produce an overwhelming hybrid.

It's a plant with the features of a great Indica: delicious, rich in resins, dense and with abundant dark green foliage.

It is very appropriate to become a mother because of its growing characteristics. In the beginning, its flavor is sweet, but eventually turns out to be acid.

It has a relaxing and enjoyable effect.

Also, due to its unique features, Anesthesia can help relieve the effects of certain illnesses.
