Description

Auto #1

Auto #1 is Autoseeds' original autoflowering variety. It's their most stable, tried and tested Ruderalis x Indica cross, (Super Skunk x Siberian Ruderalis). It is a real winner if you are looking for great results in a really short timeframe. It's also a great starter auto strain for beginners.

This strain has one of the lowest odour levels of any auto, making it an excellent discreet grow. If given 20 or even 22 hours of light, the results can be truly satisfying.

Auto #1 is vigorous and has a great psychoactive effect. It is considered very easy to grow, almost foolproof. Its minimal like height makes it ideal for balconies, terraces, or any place where space is limited topping out at around 80cm.

It will thrive in most climate zones provided it is given plenty of light (even very northern latitudes).

TYPE

Indica

HEIGHT

50cm-75cm

STONE

Body Buzz

YIELD

250-350 g/m²

THC

15%

TASTE

Full of classic skunk flavours, the earthy and rich aroma is clear as soon as you smell the cured flowers. When heated it releases more of the lighter pine flavours on both inhale and exhale.
