Description

Auto Chemdog

Ready in only 60-65 days from seed, it is one of our quickest finishing strains. This is thanks to the addition of Auto #1 which helps keep the plant relatively short making it ideal for closet grows or where space is limited. Yields of around 30-50g per plant (280-350g/m²) indoors make this a medium to high producer. Outdoors yields can increase significantly and harvest comes anytime from May to early October.

The balance between the sativa and indica genetics come through in the stone; starting off with a fast hitting head high, that mellows into a long lasting body buzz, and may be useful for the medical treatment of insomnia.

Auto Chemdog's real appeal comes from its extreme strength and distinctive flavour, providing a complex spicy tang with a citrus skunk background.

TYPE

Indica

HEIGHT

60-95cm

YIELD

280-350g/m²

THC

19-21%

HARVEST

60-65 days
