Description

Black Mamba CBD

This new Black Mamba strain with a high content in CBD from BlimBurn seeds is a cross between the 2004 Highlife Champion, Critical Mass, and a very fruity, red-haired compact skunk strain.

It is a great producer, producing very uniform plants with large central colas.

The buds are large, compact and extremely fragrant with strong hints of fruit that give both a physical and cerebral effect.

Black Mamba CBD also grows very large outdoors where it flowers early and shows a good resistance to mould.
