### Description

Cobalt Haze

Cobalt Haze Feminized is an indica / sativa hybrid strain selected to join the Sensi Seeds menu by the cannabis community. Developed by Sensi Seeds, its parent plants include Silver Haze, Afghani #1, and Blueberry. The sativa influence is evident in the height of the plants, while the indica genetics can be seen in the generous harvests. It grows well in warm, sunny climates, and doesn't require too much maintenance to produce good yields. Growers report that the aroma and taste are fruity, citrusy and mildly skunky.
