Description

**Critical Purple Kush**

Hybrid with great flavor and excellent resin production that was born from a cross between two of the most prized clones of Advanced Seeds' private gene pool, Critical and Purple OG.

The plant's structure is reminiscent of the Critical but with a tint inherited from Purple OG. Most of the specimens acquire purple colors, but also black tones, both in the leaves and buds without the need for low temperatures.

Sweet flavor and complex aroma in which you can find coffee and earthy notes. Resistant to pests.

### Genetic

Critical x Purple OG

### Yield

550 - 600 gr/m<sup>2</sup>

### THC

18%

### Indoor height

75 - 100 cm

### Outdoor height

2,0 - 2,5 m
