Description This chunky subtropical Sativa is named after the port city of Durban in South Africa, the genotype is favored by local growers for uniform flowering and reliable performance, and throughout the region each year there is a production of thousands of kilos of dark, distinctive Sativa buds Durban.

Durban is one of the purest Sativa varieties that can be found today.

This variety has a heavy, robust and even in the worst summer produce stunning harvests of sparkling, sticky buds of distinct lemon-aniseed flavor branches.
