Description

Elixir Vitae CBD

Elixir Vitae CBD is a plant born from a cross between Medical CBD and Jean Dark CBD, famous for its high CBD content and for having a complex terpene profile, which combines hints of caramel with sweet and sour tones. Due to its high CBD:THC ratio, its effect is not psychoactive, but maintains its "therapeutic" effects without associated side effects, such as red eyes and dry mouth. Because of this, it is an ideal plant for making tinctures, oils, creams, butters, etc. Its structure is of hybrid with indica tendency and its flowering varies between 55 and 60 days. It is a very beautiful plant, because it usually gives pink and/or violet pistils which give it a spectacular aspect.

70% Indica 30% Sativa (feminized)

THC: 0.15% to 0.25% - CBD: 9% to 14%.

Vegetative period in indoor: 1-2 weeks

Indoor flowering period: 9 weeks

Production indoor/m2: 400 gr

Outdoor height: 1-2 meters

Harvest outdoor: end of September

Outdoor yield/plant: 800 gr

Genotype: Medical CBD x Jean Dark CBD
