Description A Thai-Afghani f1 hybrid of impeccable breeding which strongly expresses both its Indica and Sativa heritage. The mere sight of these tall, elegant ladies in bloom, bending slightly under their payloads of long, candied buds confirms that the time and effort devoted to this strain was very well spent.

Fruity Juice is a power plant instead of a plant with long leaves, thick stems bursting with fragrance, power and hybrid vigor.

Well grown Fruity Juice buds are covered by a layer of gum resin that exudes a strangely familiar sugared flavor that must be smoked to believe.
