Description

Girl Scout Cookies

Girl Scout Cookies Feminized (GSC) is 50% indica, 50% sativa. It's one of the most popular strains to come out of the Californian breeding explosion. Parent plants include the legendary South African sativa Durban, crossed with indica cultivar Hindu Kush, and OG Kush, an Afghan/Californian indica hybrid. The resulting feminized seed-strain is an ideal balance of sativa and indica, with high resin production and sweet flavours.
