## Description

### Gorilla Glue Auto

By crossing a carefully selected phenotype of the Cannabis Cup winning legend with Auto #1, one of the most powerful autoflowering strains in existence was created! Like the original, expect ludicrous amounts of resin production. Gluing everything together from your fingers to scissors and your body to the couch. The cross with Auto #1 gives the strain maximum stability making for buds that are plentiful, chunky and covered with an abundance of resin whilst levels of THC tested at an awesome 23%.

As expected, our Gorilla Glue Auto delivers a powerful body stone which is both incredibly relaxing and euphoric. This gives it an outstanding ability to treat conditions such as chronic pain, depression, insomnia, nausea and muscle spasms. Gorilla Glue Auto is super easy to grow indoors or out. To maximise production indoors use over 600W/m<sup>2</sup> and 10+ plants in that space. CO<sub>2</sub> enhancements and slightly higher levels of top quality nutrient will further fuel that harvest.

The taste is particularly delectable. On the inhale it blends citrus, pine and earthy notes with hints of coffee, flavours that made strains such as the original OG Kush and Sour Diesel so popular.

## TYPE

Indica

## HEIGHT

30-70cm

## HARVEST

70-75 Days

## YIELD

600g/m<sup>2</sup>

## THC

23%
