### Description

One of the first cannabis varieties designed for tough outdoor conditions. Since the early Eighties Holland's Hope seeds have flourished in the Netherlands, raising the standard for Dutch outdoor weed. This strain was named for her ability to finish flowering and produce excellent results

in a wet and changeable summer - thus giving hope to Holland's outdoor growers! Holland's Hope is a fungus-resistant pure Indica. She produces solid, heavy buds with a knock-down stone. Plants remain compact by outdoor standards and can produce a remarkable harvest, even in an unremarkable summer. Type10% Sativa, 90% IndicaIndoor50-60 daysOutdoorYieldHeavyHeightAverageTHC%CBD%CBN%
