Description

Lemon Tree

LEMON TREE™ is an award-winning combination of the US classics Lemon Skunk & Sour Diesel oozing with deliciously high levels of Limonene and Myrcene.

This easy growing perfectly balanced 55% Indica hybrid, delivers significant yields of succulent compact frosty light-green buds laced with a thick coating of trichomes releasing fresh lemon citrusy aromas, a real sensory pleasure to grow.

Indoors utilising low stress techniques, this plant reaches final heights of around 90-100 cm, with an output of up to 650g/m2, after a relatively short flowering period of just 65-70 days.

Outdoors with longer time to evolve LEMON TREE™ can reach up to 2 metres and yield up to 1.5 kg per plant finishing from the middle to end of October.

Once cured savour the pungent super skunk and sour lemon aromas due to its high levels of terpenes, it's refreshing sharp tangy lemon and diesel undertones make this strain incredibly unique, keeping you lifted and joyful whatever you do throughout the day.
