### Description

Lemon Trip

After many years working with different strains with citrus nuances, we achieved the G10, a variety only available for the Latin American continent. After seeing its great acceptance and its fantastic results, we decided to continue working with that development to find a strain where to highlight the citrus aromas and flavors much more.

This is how we achieve Lemon Trip, a pleasure in every sense, from which lovers of citrus varieties can get the most out of it. A powerful and very robust plant, of medium size, but which can grow larger, depending on the space it is given. It has large branches and without excess leaves.
