Description

Royal Highness

An RQS CBD Strain with powerful phenotypes

Another new feminized cannabis strain from Royal Queen Seeds' selection of Medicinal Cannabis Seeds. Royal Highness is a cross of Respect and Dance Hall. Respect is a cross of Juanita la Lagrimosa, the high CBD strain, and Cannalope Haze, a great Sativa. This, combined with the Dance hall, a beautiful Spanish hybrid, has produced a powerful marijuana strain with an almost equal ratio of CBD and THC, meaning great medicinal potential.

Like all high CBD strains, Royal Highness is not as psychoactive as some of the higher THC strains, which can be better for medical users.

The effect is a very clear, active high with very little narcotic 'stoned' effect. These types of strains have been used for their anti-inflammatory, anti-pain, anti-anxiety and/or anti-spasm effects. Royal Highness is an interesting strain with an Indica structure but a more Sativa-like effect. It will grow to a height of around 80 to 110 cm, which is very manageable for most growers. The smell is a mix of haze, skunk and sweet fruits.

The taste is smooth, sweet and a little bit skunky. Royal Highness yields around 425 to 475 grams of fine medicine per plant with a flowering period of 8 to 9 weeks.

Though designed for medical users, this is also a good cannabis strain for growers looking to try something different.
