Description

A classic Spanish strain, revisited by Green House Seed Company, and made autoflowering.

It has a medium-large size plant (70-120 cm) and has a very good production.

It is good for indoor or outdoor, completing the flowering cycle in 7 weeks. It can be flowered indoors at 18 or 12 hours of light per day, and with "sea-of-green" it can produce up to 800 grams per square meter (under 1000 Watt of light per square meter).

Outdoors it can give up to 35 grams per plant, and can be flowered anytime of the year as long as the lowest night temperature stays above 10 degrees Celsius Flavor is sweet and spicy at the same time, complex.

The effect is stoned, physical. It is a good plant for beginners.
