Description

Sweet Cherry Pie

This hybrid is the synergy of crossing two handpicked elite clones of two heavyweight US strains with high THC levels: Cherry Pie (Grand Daddy Purple x Durban Poison) x Gelato (Sunset Sherbet x Thin Mint Cookies).

It is primarily an indica strain and produces attractive, compact, thick buds covered with aromatic trichomes. Thanks to the hybrid's Grand Daddy Purple ancestry, some plants display purple or reddish tones in their leaves and flowers.

The buds have a sweet, fruity aroma that evokes memories of home-baked cookies, cherries and earthy shades of acidic wild berries.

The plant is ideal for fans of indica-sativa hybrids given its relaxing, well-balanced effects that help get creativity flowing and stimulate concentration.
