### Description

For years, White Skunk has proved itself an excellent variety for first-time growers, and has also gained a great reputation among connoisseurs who know that high quality cannabis genetics can still be obtained at a reasonable price. These desirable features have been retained and

enhanced for the latest update to this strain – feminized White Skunk seeds! As a true Skunk, this seed-strain is consistent, potent and easy to grow; if anything, her uniformity, reliability and power have been increased in her all-female incarnation. Feminised White Skunk has the vigour and rapid flowering time for which her extended family is famous, while her longer, slightly more open bud structure reflects the Sativa side of her cannabis ancestry. Feminised White Skunk's aroma is an improvement over the 'typical Skunk' smell. She produces large, running buds smothered in resin crystals and infused with a rich, bitter-orange scent that's reminiscent of a fine liqueur. Type 35% Sativa, 65% Indica Indoor 50-55 days Outdoor Yield L Height Average THC% CBD% CBN%
